Non-contracted Insurance Carriers Policy

Our policy for non-contracted carriers is to bill fee-for-service. We can bill all non-contracted insurance carriers; however, patients may be subject to a higher out-of-pocket expense. Precision Aspiration and Biopsy is willing to work with non-contracted insurance carriers and patients. We will recognize the non-contracted carriers "Usual and Customary" and apply the identified write-off amount provided the "Usual and Customary" Allowable Amount does not fall below Governmental Fee Schedules.
